

ELRO Multi-function valve

In case of malfunction or damage, do not put the appliance under pressure.

Fire danger! Deep fat frying is only allowed in the operation mode **shallow float-frying**¹⁾.

Caution, hot surfaces!

Caution, hot surface that must be touched!

Use all operation elements with the foreseen handle.

Caution, escaping steam!

Steam can escape from all appliance openings.

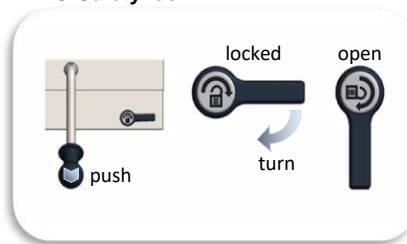

Caution, danger of pinching or crushing!

The appliance must always be operated under supervision. Exceptions are the operation modes with „moist heat“.

During operation, the deflector plate must be correctly mounted on the ELRO Multi-function valve!

ELRO-Safety lock

Observe the filling mark

▽ max. filling mark

Only operation mode “shallow float-frying”

— max. fat filling mark

— min. fat filling mark

Tilting device, autolift, lifting/lowering device²⁾

Caution, danger of pinching or crushing! Make sure that the space between the pan and the console is free before each operation.

Danger of burning! Accidental or jerky tilting can cause hot fat or food to overflow.
