

ELRO at work

Grand Tirolia Golf & Ski Resort

«The multifunctional ELRO pressure bratt pans cover just about all the requirements of a modern kitchen.»»

Bobby Bräuer
Chef de Cuisine
Grand Tirolia Golf & Ski Resort

Just recently, Kitzbühel/A acquired an added attraction: The newly opened Grand Tirolia Golf & Ski Resort at a perfect location just outside town is a real gem for the hotel and gastronomy offering in this world renown sports and recreation region.

Pampering discerning guests with excellent cuisine was high on the priority list of the new resort concept. In designing the resort, obviously only a top of the line kitchen solution in keeping with the hotel's style came into question. During evaluation, particular emphasis was placed on the functionality, optimal design and flexibility of the appliances under consideration. Of course, energy consumption was also looked at closely, since the Grand Tirolia kitchen is open from early morning until late at night to serve its guests.

The ELRO Series 2300 pressure bratt pans made an especially positive impact in Kitzbühel due to the fact that all types of cooking techniques – cooking, frying, roasting, braising, steaming, poaching – can be carried out in one and the same appliance. Thanks to the high quality design and because they are easy and practical to clean, ELRO appliances meet the high standards of this top hotel.

Bobby Bräuer sums up, «In addition to the purely technical advantages, ELRO appliances contribute a great deal to the extremely pleasant and calm working environment in our kitchen thanks to their functionality and easy operation.»
