

ELRO at work

Nestlé

«In choosing ELRO, we found the highest quality for our international show-piece: In other words the best quality for the best price.»

Christian Glauser
Catering Manager
Nestlé SA

Nestlé Headquarters, Vevey, Switzerland

Nestlé – a name that automatically stands for the worldwide highest quality standards in the food industry. In-house requirements were also demanding when it came to the total redesign of the entire catering facility at the corporate headquarters in Vevey. A unique project was developed in cooperation with a design company: A new construction on the rooftop of the headquarters, designed as a wellness oasis, and with a splendid view of the Lake of Geneva.

It goes without saying that optimal quality was a high priority. However, cooking process speed was also very important in Nestlé's evaluation of possible suppliers. The goal was to provide a freshly prepared, varied food offering in the open kitchen with a total of seven serving stations. Furthermore, cooking process programming to achieve consistent quality in the production of the 1,500 meals per day was a decisive factor. The selected ELRO Series 2300 cookers and flexi-pans offer an additional advantage in their daily use at the Vevey operation: Easy, hygienic cleaning increases kitchen process efficiency.

«The dependable technology and ELRO's excellent customer service was so convincing that we've also equipped the ground floor kitchen of the «Le Léman» (restaurant with wait service) with ELRO appliances,» adds Christian Glauser.
