

ELRO at work

Schindler Aufzüge

«Speed in our kitchen is the top priority. Thanks to ELRO appliances, we can handle the short, but very intense service time at noon masterfully.»

Giachen Caduff
Head of Restaurant Personnel
Schindler Aufzüge AG

Schindler

Personnel Restaurant Schindler Aufzüge, Ebikon, Switzerland

Schindler

Activities at Schindler Aufzüge AG can be almost exclusively assigned to the topic «going up»: Schindler is the second largest manufacturer of elevator equipment worldwide, and number one in the area of escalators.

Schindler also impresses with other numbers: Around 1,800 employees work at the headquarters in Ebikon (CH). And: In the brief hour and fifteen-minute noon rush, the employee restaurant serves 700 to 800 meals in daily variations and in the best quality.

In view of the short, but very intense daily peaks, process optimization and increased efficiency were at the top of the list in planning the renovation of the kitchen operations at Schindler. Keeping a watchful eye on savings in energy consumption was also important.

During equipment evaluation, it soon became obvious that thanks to the flexibility of the ELRO Series 2300 appliances in comparison with the previous equipment, a significant decrease in the number of appliances required could be attained. In turn, a considerable reduction in space requirements, building technology services and the overall operation costs also resulted. The appliance configuration, which includes a pressure bratt pan, a flexi-pan, two tilting cookers and a Sirius range, fulfils Schindler's high kitchen standards in every respect.

Giachen Caduff summarizes his experience with ELRO, «Thanks to ELRO appliances, we were able to significantly optimize our internal processes and clearly increase efficiency because the appliances are so easy to clean.»
